mysgreen

There are a lot of reusable beeswax paper lines on the market, yet none that have as many patterns or ones that are as pretty as those from Mysgreen. Handmade in British Columbia, the collection includes the eco-friendly reusable beeswax wraps and bags along with lined reusable pouches.

alpaca studio

Decorative candles and handmade soap from Vancouver-based Alpaca Studio are simply breathtaking. The tiny decorative details applied to each item are delightful, so pretty in fact that many customers simply purchase items to admire rather than use. They used locally-sourced ingredients to create these works of art.
